Xinet Releases Xserve Performance Benchmarks

Berkeley, California - June 26, 2002 - Today Xinet released performance benchmarks that demonstrate the impressive power of its software on Apple's Xserve.
(<http://www.xinet.com/benchmarks>)

Using Xinet's FullPress(R) and WebNative(TM) server software, the tests document an Apple Xserve generating 2400 DPI screened TIFF output files from a complex eight-page PostScript document at a rate of nearly eight pages per minute. Additional tests showed that the Xserve also has superb I/O speed. For complete testing details, see www.xinet.com.

"The Xserve delivers a lot of power to smaller organizations who haven't been able to reap the benefits of a central server," said Xinet CEO Scott Seebass. "Technology once available only to large companies is now within the reach of small prepress, print and design shops."

FullPress is a powerful prepress server package that streamlines production workflows with file sharing, print spooling, output optimization and image replacement. WebNative is a server-based asset management system that provides 24-hour access to production servers via the Internet.

With offices in Berkeley, California, and Munich, Germany, Xinet, Inc. has developed cross-platform networking software since 1985. Products include FullPress, WebNative, and WebNative(TM) Venture, which includes an integrated database. Xinet has thousands of customers in Europe, Asia, Africa, North America, South America and Australia. See www.xinet.com for more information.

About Xinet, Inc.

Xinet has developed image server software for the graphic arts, communications, publishing and printing industries since 1991. Now the de facto standard among advertising agencies worldwide, the Xinet WebNative platform is the only digital asset management system that offers a dynamic production workflow toolset.

With its integrated database that speeds search and retrieval of assets, Xinet WebNative also creates automated, metadata-driven workflows. Through a browser-based interface accessible over the network or over the Internet, Xinet WebNative marries dynamic content distribution and manufacturing systems into one powerful asset management tool used globally by top marketers.

Xinet's customers include: BBDO, Draft FCB Group, Lowe Worldwide, McCann Erickson, Ogilvy & Mather, TBWA Worldwide, TracyLocke; Macy's, Jarden Corp./Sunbeam, Otto Versand; *Fortune*, *Sports Illustrated*, *Time*; and Quebecor World.

Xinet's worldwide headquarters is in Berkeley, Calif.; its European office is in Munich. Xinet, FullPress and WebNative are registered trademarks of Xinet, Inc.
